PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with hands-on experience building and deploying AI-integrated web applications end-to-end. Shipped two production-grade platforms — GenCareerUp and DocuMind AI — covering frontend, backend, database design, and cloud deployment using React, Node.js, MongoDB, and the Google Gemini API. Comfortable owning a project from architecture through deployment without hand-holding.

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL, Python, C++
Software Eng.: OOP, Data Structures & Algorithms (DSA), SDLC, Design Patterns, Code Reviews
Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs
Databases: MongoDB, MySQL, CRUD Optimization
Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Vercel, Netlify, Wordpress
Methodologies: Agile, Scrum, Unit Testing, Version Control

EXPERIENCE

Frontend Web Development Intern — PS Technology May 2024 – Aug 2024

- Developed reusable, modular, and responsive React.js components following strict corporate coding standards.
- Integrated 10+ core REST APIs and optimized frontend asset rendering to increase page responsiveness.
- Collaborated with cross-functional engineering teams via Git; successfully turned UI prototypes into testable code features.

Freelance Web Developer — Jeeva Beauty Saloon & healthndcare.com Jan 2025 – Present

- Delivered a production React.js application from requirements gathering and wireframing through deployment and testing.
- Configured and maintained a secure WordPress healthcare site; patched operational bugs by mapping client issues to mock Agile sprints.

PROJECTS

GenCareerUp [Live Link](#)

MERN Stack Career Development Platform

- Architected 7 integrated modules (Auth, Resume AI, Interview Prep, Job Tracker) using MongoDB, Express, React, and Node.js.
- Integrated Google Gemini API to parse resume text data, returning real-time structural analysis and interview feedback.
- Deployed the operational stack using a cloud environment cluster (Vercel, Render, MongoDB Atlas, and Cloudinary).

DocuMind AI [Live Link](#)

AI-Powered Document Analyzer SaaS

- Built a scalable SaaS platform implementing an Express MVC architectural pattern backed by React 19 UI states.
- Designed an intuitive accessibility-first user interface optimizing dashboard workflow pathways for end-users.
- Configured custom SEO metadata packages to enhance application indexing performance and organic discovery speeds.

Beauty Saloon — Client Website [Live Demo](#)

React.js Commercial Web Application

- Architected a production-ready, mobile-first commercial web application end-to-end, managing requirements gathering, UI implementation, component testing, and cloud deployment.
- Transformed client business workflows into functional, responsive React.js UI features under strict operational deadlines, ensuring 100% cross-browser compatibility.

EDUCATION

B.Sc. Computer Science with Cyber Security CGPA: 8.1 / 10

Dr. SNS Rajalakshmi College of Arts and Science, Coimbatore July 2022 – May 2025

Relevant coursework: DSA, OOP, DBMS, Software Engineering, Computer Networks, Web Technologies.

CERTIFICATIONS & ACHIEVEMENTS

- Junior Software Development Certificate – Vetri Nichayam, Government of Tamil Nadu
- IIT Kanpur AI Student Development Program Cohort (2023)
- Brototype Web Development Competition – 1st Place Winner (2024)
